It has no end to acy complish but the good of the country, the prosperity and happiness of the citizens. Truth is its guiding star, and manly honor its helm.

For ten years, through sun-shine and through storm, the GAZETTE has labored to build up the State and neighborhood in which it is published, and develop their wonderful resources. Now, at the commencement of our eleventh volume, we appeal to the public to take hold and aid us in extending the circulation of the paper. We are proud to know the GAZETTE has a good character and is favorably known throughout the State. In the future, we shall endeavor to make a better paper than heretofore. In politics, it will be Democratic, but as independent as a bold-hearted paper can be. It will earnestly appeal from the recent decision to political gamblers and corrupt Returning Boards to the honest judgment of the unbought, incorruptible people of the country, whose champion it is and ever wil

It is estimated that at the time the next term com mences at Nashville, there will be two thousand cases on that docket. The one at Jackson is equally as busy, while the Knoxville docket is not far behind. There are already more cases before the court than that tribunal could dispose of in five years at steady work. But what is to be done about it? That is the places, with whatever ability the question. The Constitution declares that justice shall be done "without sale, denial or delay."
